

The Living Installation

活体装置 — design manuscript

Concept sheets for the gallery build, where the digital colony's aggregated emotion drives a real fungal culture. Plan, elevations, a cutaway, and a coloured perspective — marker-concept drawings, not photographs.

 tender · h24  calm · h205  curious · h32  dreamy · h268  companion · h158  lonely · h222

Leader labels · dimension lines in metres · N.T.S. · six family hues double as the chamber's grow-light colour.

MYCELIUM

The Living Installation

活 体 装 置 · 线 下 真 菌 培 养

A gallery installation where anonymous whispers, read into emotion, feed a living fungus.
Marker-concept design sheets · plan · elevation · axonometric · perspective.

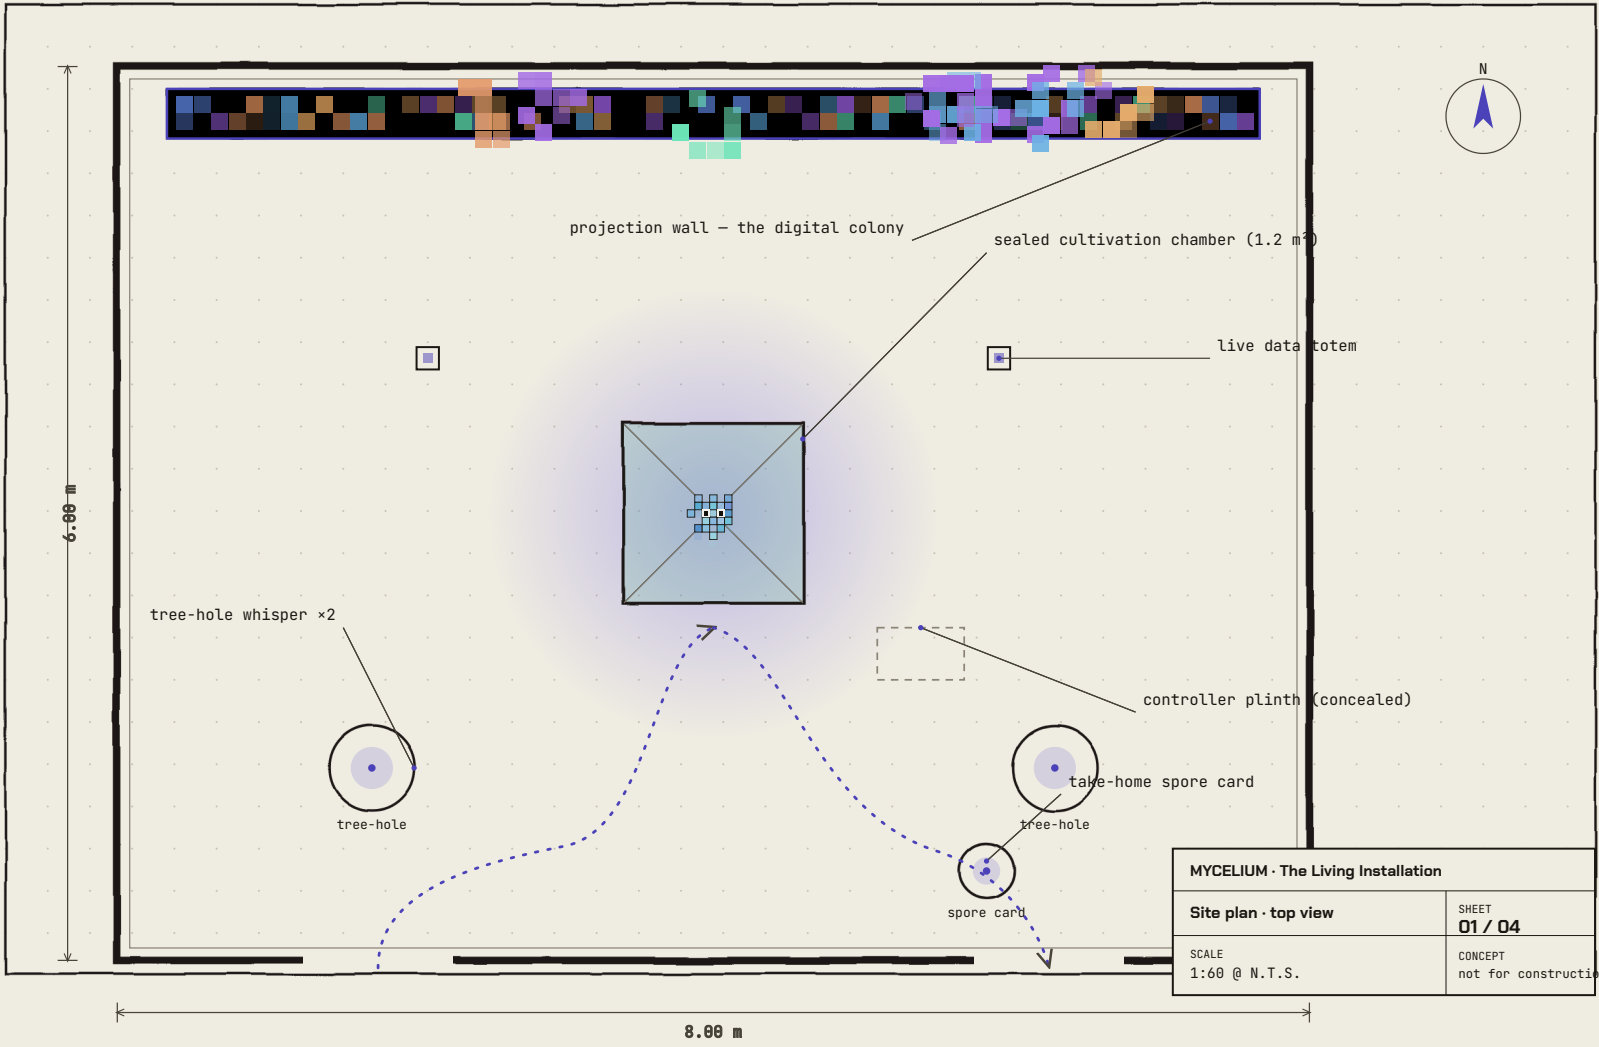

CONTENTS

- 01 Site plan – gallery layout & visitor flow
- 02 Elevations – front & side, the cultivation chamber
- 03 Axonometric cutaway – actuators, sensors, control
- 04 Perspective – the room, coloured & lit

SCALE iso 2:1 @ N.T.S.	CONCEPT not for construction

Marker-concept design manuscript – not photographs
and not construction drawings. Dimensions are
indicative; the software data bridge (/api/pulse,
/api/bio) is built, the physical build is staged.
Biosafety (sealed HEPA chamber, autoclaved substrate,
food-safe low-spore species) and privacy (projection
shows only the emotion reading, never the sentence)
are designed in.
